Weekly Report for Week Ending 10 June 1959  
from  
RECORDS DISPOSITION BRANCH

1. Contributions

25X1 a. Assisted [ ] ARO, General Counsel in preparing 6 cu. ft. of records for retirement to the Records Center. Two boxes have been retired and the remaining four will be transferred after the top secret material has been properly listed. [ ]

25X1

25X1 b. OO/FDD [ ] and team)

25X1 The revised records control schedule together with findings and recommendations made by the team has been transmitted to Miss [ ] of FDD. I wish to express my thanks to my team members for their assistance on this survey. The team members were Messrs

25X1 [ ]

25X1 c. Reissuance of Handbook for Subject Filing as unclassified publication [ ]

Completed this project which provides a training manual which should prove more useful now that it is available in two versions.

The new unclassified version may be kept on user's desk, which should result in more frequent use and easier reference to the index. It will also be easier to use as a textbook for OTR's clerical training and for RMS on-the-job training of ARO's and files custodians. It is available for Field use when desired. The original Confidential version required remarkably little change after 5 years use and is still useful when its classification is no problem.

2. Assignments

25X1 a. Shelf Filing [ ]

OCR/IR/FE/NEA

The Office of Security has informed us that some modifications to the existing secured area are necessary. A memo confirming this information is being forwarded to [ ] as well as to the Office of Logistics.

OTR/Assessment and Evaluation Staff

A floor plan has been submitted to the Office of Security for approval of the floor loading and safety. Add-a-Shelf type shelving with doors will be used for this installation. A&E Staff requested the addition of doors because of the sensitive material involved.

~~CONFIDENTIAL~~

CONFIDENTIAL

OTR/Operations Schools/Headquarters Training

Waiting for Security approval of use of secured area.

OTR/Intelligence School

The proposed use of an existing secured area has been approved by Security as well as floor loading within the area. As soon as the approved plan is returned to us we will proceed with the project.

Office of Security/Building 13  
OO/Contact Division [redacted]  
OP/Records and Services Division/Test Installation

No change from previous report.

b. Records Systems

Review of "Functional Filing System" proposed for OC [redacted]

Completed Staff Study which compared proposed system with Agency's standard Subject Numeric system, found the latter superior, and recommended its adoption for OC.

c. Records Control Schedules

Executive Registry (Draina)

No change from previous report.

OO/FDD [redacted] and team)

See Contributions 1.b.

d. Special Projects

DD/P Support Staff [redacted]

No change from previous report.

OSS/RI Archives [redacted]

The inventory of the records has been completed and a rough draft of the descriptions prepared.

Review of Clerical Training in Filing [redacted]

Transmitted revised HB for Subject Filing to OTR for use as unclassified textbook. New teaching aids (16 letters for practice and text in classifying, 16 cards for alphabetizing, demonstrator cabinet and file) are being used and instructors' reports are favorable. Visual aids (14 color slides) are being prepared by OL/PSD. Project 85% complete.

3. Vital Materials

A meeting was held with representatives from OCR Admin Staff, Machine Division, Documents Division and the War Plans Officer to discuss segregating raw intelligence from finished intelligence at time of filming OCR Batch material. Because of a delay between time of arrival of a document in the Agency and time of filming of its filmed image in the aperature card file, the proposal for segregating the material at time of filming was not accepted. However, in order that we can automatically remove all batch microfilm reels after 18 months, it was agreed that the repository would be provided with an active-film copy for all finished materials. This active film card will be filed by document number and can be located through reference to the intellofax card. This will eliminate the need for depositing the document to reel number card for all finished documents.

Our suggestion for using flash card targets on all batch micro-filmed reels was accepted. Each filmed document will be preceded with a large 8 x 10" flash card with a number (1 or 2 digits). This number will also be punched into the document to reel card. Therefore, in the future the sequential location of a specific document on a reel can be found by referring to the appropriate library document to reel card.

A meeting was held with  OCR/TS Control to obtain permission for the repository to destroy certain TS deposits of raw intelligence. Approval was received for 6 of 12 series discussed. The remaining 6 will be referred to  newly appointed Chairman of the DDI/Vital Materials Committee for review.

25X1

25X1

Two from DD/P and three from ORR accompanied last week's trip to the Repository.

Microfilming of Vital Materials continues in OCR/GR and Security Office.

25X1  provided us with a copy of the revised microfilm schedule for the Personnel Office.
